### Boat Safety Leaders Can Vie for Cups

The third annual search for leaders in safe-boating education has been launched with the announcement that entries are now being accepted for the National Gold Cup.

The awards, sponsored by the Kiekhaefer Corporation, manufacturers of Mercury outboard motors, will again be judged by this panel of boating leaders:

Don Guerin, chairman, Special Events, American Power Boat Association.

Rear Admiral H. T. Jewell, chief, Office of Merchant Marine Safety, U.S. Coast Guard.

Webb Sheehy, Past National Commodore, U.S. Coast Guard Auxiliary.

Charles Sligh, chairman of the board, American Water Ski Association.

William Wolfmuller, Past Chief Commander, U.S. Power Squadrons.

Awards are made in three categories, to:

1. A community or group which made substantial progress towards improving boating safety in its area in 1960.
2. An individual or boat manufacturer who made a major contribution to safety

in boat design in 1960.

3. A magazine, newspaper, radio or TV station which assumed leadership in its community, or nationally, towards promoting greater boating safety consciousness in 1960.

The award winners will be announced in January during the National Motor Boat Show in New York. Entries and information should be sent to Mr. Don Guerin, 852 Maple Drive, Webster, New York, by Nov. 30.

Thousands of new job opportunities are expected to open up soon in the space and missile industries for both men and women, according to Wilson Baden, manager Technical Publications Institute, 16422 S. Vermont Ave., Gardena. "The demand will be especially great for technical writers, technical illustrators and engineering draftsmen," Baden said. "Training is best acquired through home study. Technical Publications is the oldest and largest school exclusively offering training in these fields," Baden added. T.P.I. has letters from many graduates stating that they have increased their incomes to as high as \$200 and \$250 a week and often more. They secured these jobs with the help of T.P.I.'s placement service, which is FREE to graduates. According to school records, a student spending 6 hours a week may qualify for these high paying jobs in a year or less. Many complete the courses in a few months. Truck drivers, clerical workers, mechanics, police officers, school teachers, engineers, retired people, college students, farmers and others from all walks of life are entering these fields. Educational advisors give students personal assistance, when needed.
